# THE LIBRARY CONSORTIUM

A library consortium is a group of libraries that works together to pool resources and coordinate activities so that each library gains more than any individual library could achieve on its own.

### **Library Consortia may focus on:**

### **LICENSING**

Libraries often save money through group licensing of resources and/or products.

### **SHARING RESOURCES**

Sharing materials through interlibrary loan is one way to scale resources. Libraries also share expertise and staff time.

### **ADVOCACY**

By combining efforts and coordinating activities to address library-related issues, library consortia have a stronger impact.

### **INFRASTRUCTURE**

Examples of shared infrastructure include technology (e.g. a shared catalogue) and services (e.g. centralized invoicing)

### **SERVICES**

Many services, like cross-library training, regional virtual chat, or shared institutional repositories, may be run consortially.

## There are many benefits to library partnerships:

- → Lower costs (e.g. on group licenses, savings on staff time when efforts are deduplicated)
- → Increased impact (e.g. through unified action)
- → Greater efficiency (e.g. through centralized staffing, scaling infrastructure)
- → Shared expertise (e.g. innovation through communities of practice)
- → Equity across a system (e.g. when smaller, rural libraries can offer the same resources as larger, urban libraries)

A library consortium could consist of:

### **A SINGLE TYPE**

e.g. Ontario Council of University Libraries (Canada)

### **MULTI-TYPE**

e.g. Couperin includes a variety of institutions as members (France)

### And may pursue:

### **A SINGLE PURPOSE**

e.g. HathiTrust is focused on digital preservation (International)

### **MULTIPLE ACTIVITIES**

e.g. OhioLINK offers a range of services (US)

### A library consortium might be:
